Test Files for July PC Disclosure Changes

On April 22, Freddie Mac announced that, as part of its ongoing review of its mortgage participation certificate (PC) disclosure practices, it would implement enhancements for all PC pools beginning July 2004. To prepare for the July implementation, below are five test files. These test files are production size, but are not populated with production data. They should be used in conjunction with the **revised** Guide to PCs, Giants & REMIC OID Disclosure Information that was released today.

File	File Size	Record Length
Daily New Issue File	unzipped = 161,336 Bytes zipped = 24,858 Bytes	300
Daily Breakout File	unzipped = 473,172 Bytes zipped = 57,932 Bytes	300
Monthly ARM Factor File	unzipped = 43,799,355 Bytes zipped = 4,092,778 Bytes	760
Monthly Quartile File	unzipped = 83,128,980 Bytes zipped = 13,145,520 Bytes	309 (Was 310 in 4/22/04 Announcement)
Monthly Breakout File	unzipped = 711,962,825 Bytes zipped = 56,365,059 Bytes	300
