

We make home possible®

## Investments & Capital Markets Intern

Freddie Mac is a federally chartered corporation that buys, guarantees, and securitizes residential mortgages, in order to provide a continuous and low-cost source of credit to finance America's housing. In pursuit of this mission, Freddie Mac actively manages a portfolio of mortgages and mortgage-related securities in excess of \$600 billion. In fact, Freddie Mac is one of the largest fixed income investors in the world. The portfolio is funded using equity and a wide variety of debt and derivative instruments, including callable debt, swaps, swaptions, and caps. In addition, Freddie Mac is a market leader in creating, valuing, and trading the full spectrum of mortgage backed securities for a wide variety of customers, including mortgage bankers, investment firms, portfolio managers, pension funds and others. For more information about Freddie Mac, please visit our website at <http://www.freddiemac.com/careers/collegerecruiting.html>.

Freddie Mac aspires to be the premier financial institution in the world. This bold vision results directly from the critical importance of our mission -- to lower costs and increase access to quality housing for more of America's families. To do this, we must be the best. This means we need the best accounting practices, controls, and financial disclosures. Transparent and accurate financial information is the cornerstone of our commitment to support and expand America's housing system. As part of our financial management we build long-term value for our shareholders and meet our regulators' capital requirements - to ensure that we have enough cash on hand to sustain our nation's mortgage market through economic hard times.

### **Investments & Capital Markets Intern**

As an intern, you have the opportunity to work in the investments, debt funding, mortgage funding, research, or trading groups. Interns will have the opportunity to become proficient in financial market analysis by providing research support for capital markets. Interns may learn about credit default swap pricing and conduct analysis in support of the asset and liability group. Additionally, interns may assist with identifying and analyzing trends in support of the mortgage desk.

#### Required experience and skills:

- Pursuing a Bachelor's degree in finance, economics, mathematics, statistics, physics, engineering, or quantitative finance.
- Individuals with experience developing and designing financial applications are highly encouraged to apply.
- Interest in a challenging career in fixed-income finance.
- Strong quantitative skills.
- 3.2 GPA is preferred.
- Must be a rising senior and available to begin full time employment on May 27, 2008. The intern program is 11 weeks and will end on August 8, 2008.

*The hired candidate must be legally authorized to work in the United States without an employer-sponsored petition for a visa, such as an H-1B visa. Freddie Mac does not intend to file any visa applications in connection with this opening.*
