THE DEBENTURES ARE NOT SUITABLE INVESTMENTS FOR ALL INVESTORS. CERTAIN INVESTMENT CONSIDERATIONS

An investment in the Debentures entails certain risks not associated with an investment in conventional fixed-rate debt securities that pay interest periodically. While the Debentures, if held to maturity, will provide return of their principal, including return of their discount, their market value could fluctuate substantially with changes in prevailing interest rates. In a rising interest rate environment, the market value of the Debentures generally will fall, which could result in significant losses to investors whose circumstances do not permit them to hold the Debentures until maturity. The possibility of such substantial price volatility, combined with the fact that payments on the Debentures will be made only at maturity and not periodically, also could affect the secondary market for and the liquidity of the Debentures. Investors therefore should have the financial status and, either alone or with a financial advisor, the knowledge and experience in financial and business matters sufficient to evaluate the merits and to bear the risks of investing in the Debentures in light of each investor's particular circumstances and should consider whether their circumstances permit them to hold the Debentures until maturity, or otherwise to bear the risks of illiquidity and price volatility. See "Certain Investment Considerations - Suitability" and - "Market, Liquidity and Yield Considerations" in the Offering Circular.

Prospective investors should consult their own tax and legal advisors as to the tax consequences of acquiring the Debentures at a substantial discount and of holding, owning and disposing of the Debentures, and whether and to what extent the Debentures constitute legal investments for such investors. See "Certain Federal Tax Consequences" and "Legal Investment Considerations" in the Offering Circular.

PLAN OF DISTRIBUTION

Subject to the terms and conditions set forth in the Underwriting Agreement between Freddie Mac and Smith Barney Inc., (the "Underwriter"), Freddie Mac has agreed to sell, and the Underwriter has agreed to purchase, all of the Debentures offered hereby, if any are sold and purchased.

Freddie Mac has been advised by the Underwriter that it proposes initially to offer the Debentures to the public at the offering price set forth on the cover page of this Offering Circular Supplement. After the initial public offering, the public offering price may be changed by the Underwriter. See "Plan of Distribution" in the Offering Circular.

In connection with this offering, the Underwriter may engage in certain transactions that stabilize, maintain or otherwise affect the market price of the Debentures. Such transactions may include bids or purchases for the purpose of pegging, fixing or maintaining the market price of the Debentures and the purchase of Debentures to cover short positions.

The Underwriter may create a short position in the Debentures in connection with the offering by selling Debentures with a principal amount greater than that set forth on the cover of this Offering Circular Supplement, and may reduce that short position by purchasing Debentures in the open market. In general, purchases of a security for the purpose of stabilization or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases.

Neither Freddie Mac nor the Underwriter makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Debentures. In addition, neither Freddie Mac nor the Underwriter makes any representation that the Underwriter will engage in such transactions or that such transactions, if commenced, will be continued.

CERTAIN FEDERAL TAX CONSEQUENCES

The Taxpayer Relief Act of 1997 revises the definition of "U.S. Person" (as defined in the Offering Circular under "Certain Federal Tax Consequences") to mean a citizen or resident of the United States, a corporation, partnership or other entity created or organized in or under the laws of the United States or any State (other than a partnership that is not treated as a U.S. Person under any applicable Treasury regulations), or an estate whose income is subject to United States federal income tax regardless of its source, or a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. Persons have the authority to control all substantial decisions of the trust. Notwithstanding the preceding sentence, to the extent provided in Treasury regulations, certain trusts in existence on August 20, 1996, and treated as U.S. Persons prior to such date, that elect to continue to be treated as U.S. Persons, also will be U.S. Persons.

CAPITALIZATION

Freddie Mac's capitalization as of September 30, 1997 is set forth in a capitalization table in Freddie Mac's Information Statement Supplement dated November 14, 1997 to its Information Statement dated March 31, 1997. See "Capitalization" in the Offering Circular.
