(1) Our prospective adoption of the changes in the accounting standards related to transfers of financial assets and consolidation of VIEs significantly impacted the presentation of our financial results. Consequently, our financial results for 2010 are not directly comparable to our financial results for 2009. See "NOTE 2: CHANGE IN ACCOUNTING PRINCIPLES" in our Form 10-Q dated August 9, 2010 for further information.

(2) For securities, we calculate average balances based on their amortized cost.

(3) When we purchase multi-class securitization securities, we record them as investments in debt securities. Interest income from the investments in debt securities is recognized as well as the interest income from the mortgage loans backing the PCs held by the trusts, which underlie multi-class Structured Securities. Additionally, the interest expense from the unsecured debt issued to purchase the security is recognized along with the interest expense of the debt issued to third parties of the PC trusts we consolidate which underlie multi-class Structured Securities.

(4) Non-performing loans, where interest income is generally recognized when collected, are included in average balances.

(2) Includes the reversal of interest income accrued, net of interest received on a cash basis related to mortgage loans that are on non-accrual status.

(3) Represents amortization related to premiums, discounts, deferred fees and other adjustments to the carrying value of our financial instruments and the reclassification of previously deferred balances from AOCI for certain derivatives in cash flow hedge relationships related to individual debt issuances and mortgage purchase transactions.

(4) The portion of the impairment charges recognized in earnings expected to be recovered is recognized as net interest income. Upon our adoption of an amendment to the accounting standards for investments in debt and equity securities on April 1, 2009, previously recognized non-credit-related other-than-temporary impairments are no longer accreted into net interest income.

(5) Represents changes in fair value of derivatives in cash flow hedge relationships that were previously deferred in AOCI and have been reclassified to earnings as the associated hedged forecasted issuance of debt affects earnings.

(6) Results for the three and six months periods ended June 30, 2010 include an out-of-period accounting adjustment which resulted in a \$1.3 billion increase in our allowance for loan losses and consequently our provision for credit losses in the second quarter of 2010. For further details related to this out-of-period accounting adjustment, see “NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES” in our Form 10-Q dated August 9, 2010.

- (1) Based on the total mortgage portfolio, excluding Freddie Mac Structured Transactions, non-Freddie Mac mortgage-related securities and that portion of Structured Securities that is backed by Ginnie Mae Certificates.
- (2) Single-family delinquencies are based on the number of loans three monthly payments or more delinquent or in foreclosure while multifamily delinquencies are based on UPB of loans two monthly payments or more delinquent or in foreclosure. Delinquencies exclude loans whose original contractual terms have been modified under an agreement with the borrower as long as the borrower complies with the modified contractual terms. We have revised our presentation of single-family delinquency rates to include Structured Transactions and our multifamily delinquencies are reported at two monthly payments past due. Prior periods have been revised to conform to the current period presentation.
- (3) Based on loans held by us on our consolidated balance sheet as well as those underlying our PCs, Structured Securities and other mortgage-related financial guarantees. Foreclosure alternative information excludes loans underlying Structured Transactions and that portion of Structured Securities that is backed by Ginnie Mae Certificates.
- (4) For more information on our foreclosure alternatives and loss mitigation activities see "MD&A — CREDIT RISKS — Loss Mitigation Activities" in our 2009 Form 10-K dated February 24, 2010.
- (5) Represents completed activities and excludes those modification, repayment and forbearance activities for which the borrower has started the required process, but the actions have not been made permanent, or effective, such as loans in the trial period under HAMP. These categories are not mutually exclusive and a loan in the forbearance agreement category may also be included within another category. Many borrowers complete a forbearance agreement before beginning the trial period of HAMP or before one of the other foreclosure alternatives is pursued or completed. We only report activity for a single loan in one foreclosure alternative category during each quarterly period; however, a single loan may be reported under different foreclosure alternatives in separate periods. Prior periods have been revised to conform with the current period presentation. For more information on our non-performing assets see "MD&A — CREDIT RISKS — Non-Performing Assets" in our 2009 Form 10-K dated February 24, 2010.
- (6) Loan loss reserves equals the sum of allowance for loan losses (consolidated balance sheets — Lines 7 and 8) and reserve for guarantee losses, which is now a component of Other liabilities (Line 23). See "NOTE 22: SELECTED FINANCIAL STATEMENT LINE ITEMS" in our Form 10-Q dated August 9, 2010 for additional information. Results for the three and six months periods ended June 30, 2010 include an out-of-period accounting adjustment which resulted in a \$1.3 billion increase in our allowance for loan losses and consequently our provision for credit losses in the second quarter of 2010. For further details related to this out-of-period accounting adjustment, see "NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES" in our Form 10-Q dated August 9, 2010.
- (7) Adjustments relate to the adoption of amendments to the accounting standards for transfers of financial assets and consolidation of VIEs, which we implemented on January 1, 2010.
- (8) Provision for credit losses includes our provision for losses incurred on our loans held for investment, and our provision for guarantee losses incurred on loans underlying our non-consolidated PCs, Structured Securities and other mortgage-related financial guarantees.
- (9) Equal to REO operations income (expense) (Line 21) plus Charge-offs, net (Lines 25 and 26) plus amounts previously transferred to reduce the carrying value of loans purchased under financial guarantees. The previously transferred reserves totaled \$261 million and \$105 million for the six months ended June 30, 2010 and 2009, respectively. Excludes other market-based credit losses recognized on our consolidated statements of operations, including losses on loans purchased and other than temporary impairments on our mortgage-related securities.
- (10) Calculated based on the average total mortgage portfolio, excluding non-Freddie Mac mortgage-related securities and that portion of Structured Securities that is backed by Ginnie Mae Certificates.

(1) Includes single-family non-credit-enhanced mortgage loans in our single-family credit guarantee portfolio, but excluding certain Structured Transactions for which regional data is not available. Structured Transactions for which regional information is not available are included in the totals. Beginning in the first quarter of 2010, we revised our presentation of single-family delinquency rates to include Structured Transactions. Prior periods have been revised to conform to current period presentation.

(1) See “NOTE 16: SEGMENT REPORTING” in our Form 10-Q dated August 9, 2010 for more information regarding Segment Earnings.

(2) Beginning January 1, 2010, under our revised method, the sum of Segment Earnings for each segment and All Other category equals GAAP net income (loss) attributable to Freddie Mac.

(3) Consists primarily of amortization and valuation adjustments related to the guarantee asset and guarantee obligation which are excluded from Segment Earnings and cash compensation exchanged at the time of securitization, excluding buy-up and buy-down fees, which is amortized into earnings. These reconciling items exist in periods prior to 2010 as the amendment to the accounting standards for transfers of financial assets and consolidation of VIEs was applied prospectively on January 1, 2010.

(1) See “NOTE 16: SEGMENT REPORTING” in our Form 10-Q dated August 9, 2010 for more information regarding Segment Earnings.

(2) Beginning January 1, 2010, under our revised method, Segment Earnings for the Multifamily segment equals GAAP net income (loss) attributable to Freddie Mac for the Multifamily segment.

(3) We wrote down the carrying value of our LIHTC investments to zero in our GAAP financial statements at December 31, 2009, as we will not be able to realize any value either through reductions to our taxable income and related tax liabilities or through a sale to a third party.

(4) There are no credit fees associated with our multifamily guarantees; however, this rate excludes prepayment and certain other fees.
