**February 2011 Highlights:**

- ▶ The total mortgage portfolio increased at an annualized rate of 0.1% in February.
- ▶ Single-family refinancing purchase and guarantee volume was \$31.4 billion in February, reflecting 81% of total mortgage purchases and issuances.
- ▶ Total number of loan modifications were 11,864 in February 2011 and 23,017 for the two months ended February 28, 2011.
- ▶ The aggregate unpaid principal balance (UPB) of our mortgage-related investments portfolio increased by approximately \$1.3 billion in February.
- ▶ Total Freddie Mac mortgage-related securities and other guarantee commitments decreased at an annualized rate of 1.7% in February.
- ▶ Our single-family seriously delinquent rate decreased to 3.78% in February. Our multifamily delinquency rate increased to 0.36% in February.
- ▶ The measure of our exposure to changes in portfolio market value (PMVS-L) averaged \$383 million in February. Duration gap averaged 0 months.
- ▶ On September 6, 2008, the Director of the Federal Housing Finance Agency (FHFA) appointed FHFA as Conservator of Freddie Mac.

## ENDNOTES

- (1) The activity and balances set forth in these tables represent unpaid principal balances, and exclude mortgage loans and mortgage-related securities traded, but not yet settled. For Freddie Mac mortgage-related securities, the balance reflects security balances based on the monthly PC factor report. Freddie Mac mortgage-related securities include PCs, REMICs and Other Structured Securities and Other Guarantee Transactions. Effective January 1, 2010, we adopted amendments to the accounting standards for transfers of financial assets and consolidation of VIEs, which resulted in significant changes to our financial statements. However, we continue to present information in this monthly volume summary on the same basis as prior to January 1, 2010.
- (2) Total mortgage portfolio (Table 1) is defined as Freddie Mac mortgage-related securities and other guarantee commitments (Table 4) plus the sum of mortgage loans (Table 3) and non-Freddie Mac mortgage-related securities (agency and non-agency) (Table 3).
- (3) Includes sales of non-Freddie Mac mortgage-related securities and multifamily mortgage loans from our mortgage-related investments portfolio.
- (4) On February 10, 2010, we announced that we would begin purchasing substantially all 120 days or more delinquent mortgages from our related fixed-rate and adjustable-rate (ARM) PCs. The purchases of these loans from related PCs were reflected in the PC factor report published on March 4, 2010, and the corresponding principal payments were passed through to fixed-rate and ARM PC holders on March 15 (45-day remittance cycle) and on April 15, 2010 (75-day remittance cycle), respectively. As a result, our total Freddie Mac mortgage-related securities and other guarantee commitments (Table 4) include liquidations of approximately \$73 billion in March. Liquidations of our total mortgage portfolio (Table 1) do not include these liquidations since the activity represents mortgage loans purchased from PCs.  
  
In April 2010, sales and other activity in Table 1 include the amounts for approximately \$18 billion of March mortgage loan purchases related to the (75-day) remittance cycle (where timing differences resulted in a reduction of the PC balance in March without a corresponding increase in the mortgage loan balance). Had these mortgage loan purchases related to the 75-day remittance cycle been reflected in March (similar to the 45-day remittance cycle), the March 2010 total mortgage portfolio's ending balance and annualized growth rate (Table 1) would have been \$2,243,813 million and 0.7%, respectively.
- (5) Includes purchases of Freddie Mac mortgage-related securities into the mortgage-related investments portfolio that totaled \$12.955 billion (based on unpaid principal balance) during February 2011. Purchases include net additions for delinquent mortgage loans and balloon/reset mortgages purchased out of PC pools.  
See Endnote 4. In April 2010, purchases in Table 2 include approximately \$18 billion of mortgage loan purchases related to the March (75 -day) remittance cycle.
- (6) Mortgage purchase agreements reflect trades entered into during the month and include: (a) monthly commitments to purchase mortgage-related securities for our mortgage-related investments portfolio, and (b) the amount of monthly mortgage loan purchase agreements entered into during the month. Substantially all of these commitments are settled by delivery of a mortgage-related security or mortgage loan; the rest are net settled for cash. Our purchase commitments may settle during the same month in which we have entered into the related commitment.
- (7) Mortgage sale agreements reflect trades entered into during the month and include: (a) monthly commitments to sell mortgage-related securities from our mortgage-related investments portfolio, and (b) the amount of monthly mortgage loan sale agreements entered into during the month. Substantially all of these commitments are settled by delivery of a mortgage-related security or mortgage loan; the rest are net settled for cash. Our sales commitments may settle during the same month in which we have entered into the related commitment.
- (8) As of February 28, 2011, we had net unsettled purchase (sale) agreements of approximately \$1,294 million. The ending balance of our mortgage-related investments portfolio as of February 28, 2011 after giving effect to these unsettled agreements and assuming we did not enter into any other purchase (sale) agreements after February 28, 2011 would have been \$697.5 billion.
- (9) Includes other guarantee commitments, which consist of tax-exempt multifamily housing revenue bonds, HFA bonds, and credit-related commitments with respect to single-family mortgage loans. Excludes any securitization activity. Notional balances of interest-only strips are excluded because this table is based on unpaid principal balance.
- (10) Represents principal repayments relating to loans underlying Freddie Mac mortgage-related securities and other guarantee commitments. Also includes our purchases of delinquent mortgage loans and balloon/reset mortgage loans out of PC pools.
- (11) The ending balance of Freddie Mac mortgage-related securities and other guarantee commitments (Table 4) differs from the balance of Freddie Mac mortgage-related securities in our annual report on Form 10-K dated February 24, 2011 because Table 4 includes other guarantee commitments described in Endnote 9.
- (12) Represents the combined balance and activity of our other debt, including securities sold under agreements to repurchase and federal funds purchased, based on the par values of these liabilities.
- (13) Single-family serious delinquency rate information is based on the number of loans that are three monthly payments or more past due or in the process of foreclosure as of period end while multifamily delinquencies are based on the UPB of mortgage loans that are two monthly payments or more past due or in the process of foreclosure as of period end. Mortgage loans whose contractual terms have been modified under an agreement with the borrower are not counted as delinquent if the borrower is current under the modified terms. Delinquency rates presented in Table 6 include mortgage loans underlying Other Guarantee Transactions, but exclude financial guarantees that are backed by either HFA bonds or Ginnie Mae Certificates. Since we include loans in the HAMP trial period as seriously delinquent in our statistical reporting, this results in a temporary rise in our seriously delinquent rate until the modifications become effective and are removed from seriously delinquent status. The volume of effective modifications impacts our reported seriously delinquent rate.
- (14) On a monthly basis, Freddie Mac publishes pool-level delinquency disclosures on its single-family PC and Giant PC securities on the company's Web site, [www.FreddieMac.com/mbs](http://www.FreddieMac.com/mbs). These monthly disclosures include for each PC and Giant PC the loan count and associated aggregate UPB for mortgage loans that fall into one of four delinquency groups: 30-59 days delinquent, 60-89 days delinquent, 90-119 days delinquent, and 120 days or more delinquent. Additionally, the monthly disclosures include information about certain seriously delinquent loans purchased by Freddie Mac from each PC and Giant PC. Generally, we purchase these delinquent loans, and thereby extinguish the related PC debt, at the scheduled PC debt payment date, unless the loans proceed to foreclosure transfer, complete a foreclosure alternative or are paid in full by the borrower before such date. As of February 28, 2011, there were approximately \$3.7 billion in UPB of loans that were four monthly payments past due, and that met our criteria to allow for the purchase of delinquent mortgage loans out of PC pools.
- (15) Other Investments exclude amounts related to consolidated variable-interest entities. The balance includes cash and cash equivalents, federal funds sold and securities purchased under agreements to resell, and non-mortgage-related securities. Investments in non-mortgage-related securities are presented at fair value.
- (16) Our primary interest-rate risk measures are PMVS and duration gap. These measures include the impact of our purchases and sales of derivative instruments, which we use to limit our exposure to changes in interest rates. Our PMVS measures are estimates of the amount of average potential pre-tax loss in the market value of our net assets due to parallel (PMVS-L) and non-parallel (PMVS-YC) movements in London Interbank Offered Rates (LIBOR). While we believe that our PMVS and duration gap metrics are useful risk management tools, they should be understood as estimates rather than precise measurements. Methodologies employed to calculate interest-rate risk sensitivity disclosures are periodically changed on a prospective basis to reflect improvements in the underlying estimation processes.

A glossary of selected Monthly Volume Summary terms is available on the Investor Relations page of our website, [www.FreddieMac.com/investors](http://www.FreddieMac.com/investors).

The Monthly Volume Summary includes volume and statistical data pertaining to our portfolios. Inquiries should be addressed to our Investor Relations Department, which can be reached by calling (703) 903-3883 or writing to:
