

Monthly Volume Summary

April 2004

(unaudited & subject to change)
(dollars in millions)

INTRODUCTORY NOTE:

We have completed the restatement of our 2002, 2001 and 2000 financial results (see our Information Statement ("IS") dated February 27, 2004, available on our website, www.freddie.com/investors, for additional information regarding the restatement). When results for 2003 are released, we will provide certain updated portfolio information for 2003 on a quarterly basis. These changes are not expected to significantly affect the overall growth trend reported for the retained portfolio. We also intend to re-estimate and disclose certain Interest-Rate Risk Sensitivity Disclosures upon the release of our 2003 results. Although these disclosures are expected to change, portfolio market value sensitivities are not expected to change by more than 2 percentage points and duration gap is not expected to change by more than 1 month. Additional information concerning Interest-Rate Risk Sensitivity Disclosures as well as restated results for December 2002 and December 2001 can be found in our IS. We will provide certain updated 2004 activity and Interest-Rate Risk Sensitivity Disclosures as soon as practicable after our 2004 results are released.

Additional information has been incorporated in the April 2004 Monthly Volume Summary endnotes. Specifically, *endnote 7*, has been updated to provide further clarification on the data contained within the Mortgage Purchase Agreements, net column. *Endnote 17* has been added to address the correction of a previously reported amount.

ENDNOTES

- (1) Ending balances and activity are based on unpaid principal balances and exclude mortgage loans and mortgage-related securities traded, but not yet settled.
- (2) Total mortgage portfolio is defined as total PCs issued (Table 3) plus the sum of mortgage loans (within Table 4) and non-Freddie Mac mortgage-related securities (within Table 4).
- (3) Includes the impact of non-Freddie Mac mortgage-related security sales.
- (4) The sale of mortgage-related securities is excluded from the calculation of annualized liquidation rates.
- (5) Excludes mortgage-related securities held in connection with PC market-making and support activities, which are reflected in the "Investments" caption on the consolidated balance sheets.
- (6) Includes a reduction in the retained portfolio for mortgage-related securities that have been sold net of additions to the portfolio for delinquent mortgage loans and balloon reset mortgage loans that have been purchased out of PC pools.
- (7) Mortgage Purchase Agreements, net Includes: *i*) monthly purchase commitments of mortgage-related securities for the retained portfolio offset by monthly sales commitments of mortgage-related securities out of the retained portfolio. In some instances, these commitments may settle during the same period in which we have entered into the related commitment. Substantially all of these commitments are settled by delivery of a mortgage-related security, the remaining are net settled for cash, *ii*) mortgage-related securities that we expect to purchase pursuant to options written by us and held by certain counterparties. For all periods presented, we have purchased all of the mortgage-related securities associated with these written options in accordance with their contractual terms and *iii*) the net amount of monthly mortgage loan purchases and sales, which are based on settlement date as opposed to trade date due to data constraints.
- (8) Represents PCs and Structured Securities backed by non-Freddie Mac mortgage-related securities. Prior to the January 2004 Monthly Volume Summary, these balances included PCs as well as Structured Securities backed by private-label mortgage-related securities, but excluded Structured Securities backed by Ginnie Mae Certificates.
- (9) Includes housing authority bonds (approximately \$5 billion as of April 30, 2004) that were issued by third parties to fund the origination of multifamily mortgage loans and for which Freddie Mac provided a credit guarantee.
- (10) Liquidations include prepayment activity and delinquent mortgage loans and balloon reset mortgage loans purchased out of PC pools.
- (11) Includes activity related to multi-class Structured Securities, primarily REMICs as well as interest-only and principal-only stripped securities and other Structured Securities backed by non-Freddie Mac mortgage-related securities. These amounts exclude resecuritizations of PCs into single-class securities.
- (12) Prior to the January 2004 Monthly Volume Summary, balances of Structured Securities backed by Ginnie Mae Certificates were classified as non-Freddie Mac mortgage-related securities. These balances now have been classified as PCs held in the retained portfolio.
- (13) Represents PCs and Structured Securities backed by non-Freddie Mac mortgage-related securities that are held by third parties. Prior to the January 2004 Monthly Volume Summary, these balances excluded Structured Securities backed by Ginnie Mae Certificates. However, these balances now include these Structured Securities backed by such Certificates. In addition, when results for 2003 are released, these balances will be reduced by securities held by Freddie Mac for PC market-making and support activities.
- (14) Includes mortgage-related securities held in connection with PC market-making and support activities, which are reflected in the "Investments" caption on the consolidated balance sheets.
- (15) Includes liquidations due to prepayment activity but does not include liquidations due to the purchase out of PC pools of delinquent loans and balloon reset mortgages.
- (16) Includes delinquencies on mortgage loans where Freddie Mac has transferred primary or full default risk to various third parties, as well as Structured Securities backed by alternative collateral deals. Delinquency data reported for some Structured Securities may be omitted or subsequently revised by servicers of the underlying loans, which may require revision to previously reported numbers. For periods presented in this report, these revisions to previously reported delinquency rates have not been significant nor have they significantly affected the overall trend of our Single-Family "Credit Enhanced" and "All Loans" delinquency rates. Delinquencies on mortgage loans underlying alternative collateral deals may be categorized as delinquent on a different schedule than other mortgage loans due to variances in industry practice.
- (17) The June 2003 Non-Credit Enhancement delinquency rate which was previously reported at 28 bps has now been corrected to 29 bps.
- (18) Methodologies employed to calculate Interest-Rate Risk Sensitivity Disclosures are regularly changed on a prospective basis to reflect improvements in underlying estimation processes.
- (19) Rounded to the nearest percent.
- (20) Rounded to the nearest month.
