

To ensure proper viewing and complete utilization of our tutorials when using Internet Explorer 11, please follow the steps below.

- Disregard this if you use Internet Explorer 10 or less, or other browsers such as Google Chrome, Mozilla Firefox, Safari, Opera, etc.
- **To verify which Internet Explorer (IE) browser version you're using** – From your browser window's menu bar, click **Help** and choose **About Internet Explorer**. If you have IE11...

1. Click on the tools gear icon , or click **Tools** in the Command bar, and then click **Compatibility View Settings** in the dropdown. (If the Command bar isn't visible, **right-click** on an empty area along the top bar of your browser window & select it in the dropdown.)
2. In the **Add this website** field, type *freddiemac.elearningserver.com* and click **Add**.
3. Click **Close** to save the change.
4. If Compatibility View Settings need to be updated for a large audience, your network administrators can control it through Group Policy.
