Freddie Mac actively opposes predatory lending and has implemented a number of policies designed to combat it, including purchase eligibility requirements, as well as the requirement that Freddie Mac-approved Seller/Servicers develop and implement policies designed to identify and deter predatory lending practices.

This quick reference summarizes what a Seller/Servicer must represent and warrant when selling a mortgage to Freddie Mac. It is not a replacement or substitute for requirements set forth in the Freddie Mac Single-Family Seller/Servicer Guide (Guide), and/or terms of other purchase documents (such as the Master Agreement and/or other Pricing Identifier terms). For additional information, refer to the Guide.

### Higher-Priced Mortgage Loans  
*Guide Section 4202.5*

Freddie Mac will purchase a Higher-Priced Mortgage Loan (HPML) and Higher-Priced Covered Transaction (HPCT). A HMPL and HPCT are first-lien mortgages secured by a Primary Residence that has an annual percentage rate (APR) of 1.5% or more above the average prime offer rate (APOR) for a comparable transaction as of the rate lock date.

A HPML or HPCT sold to Freddie Mac must be one of the following:

- A fixed-rate mortgage
- An ARM with an initial period of five, seven, or ten years (for example, 5/1, 7/1 or 10/1 ARMs)

Freddie Mac requires Sellers to determine and deliver through the Selling System, the rate spread percent on all mortgages that have a calculated rate spread percent equal to or greater than 1.5 percentage points, regardless of (1) whether the mortgage is secured by a primary residence; (2) whether the Seller originated the mortgage and/or; or (3) whether the Seller is a HMDA reporter.

To determine the rate spread percent, you must calculate the difference between a mortgage APR and the Average Prime Rate Offer (APOR) for a comparable transaction. To assist in determining the rate spread percent, refer to the Federal Financial Institutions Examination Council's (FFIEC) rate spread calculator at [www.ffiec.gov/ratespread/newcalc.aspx](http://www.ffiec.gov/ratespread/newcalc.aspx).

Refer to the Guide Section 4202.5 for requirements effective for mortgages with Application Received Dates on or after October 1, 2009 and prior to October 15, 2014.

### Steering  
*Guide Section 4202.3*

Freddie Mac prohibits the “steering” of a borrower to a higher cost loan product when the borrower qualifies for a for a lower-cost loan product. A Seller should offer or direct applicants who seek financing through the Seller's higher-priced subprime or non-prime lending channel toward its standard mortgage line if the applicants qualify for one of the standard products.

### Mandatory Arbitration  
*Guide Section 4202.9*

Freddie Mac will not purchase any mortgage if any of the mortgage documents – including the Note, any Note addendum, the Security Instrument or any Security Instrument rider – contain a “mandatory arbitration” clause, that is, a clause that obligates the borrower to submit to arbitration any dispute arising out of or, relating in any way to the mortgage transaction.
