For all mortgages secured by a Condominium Unit in a Condominium Project, Sellers must meet the requirements of Freddie Mac Single-Family Seller/Servicer Guide (Guide) Chapter 5701, Special Requirements for Condominiums, and the Seller’s other Purchase Documents. Use this reference as a summary of Guide Chapter 5701 requirements.

Effective November 5, 2018, Condo Project Advisor, will be available by request and accessible through the Freddie Mac Loan Advisor Suite® portal. Condo Project Advisor allows Sellers to easily request unit-level waivers for Established Condominium Projects. Sellers can:

- Submit, track and monitor waiver requests
- Request multiple category exceptions in each waiver request
- Obtain representation and warranty relief for each approved waiver.

  - Be consistent with the nature of the project
  - Appropriate assessments must be established to manage the project
  - Appropriate allocations for line items pertinent to the type and status of the project
  - Adequate funding for insurance deductible amounts

  - The Seller may use a reserve study instead of calculating the replacement reserves of 10%, provided requirements in Guide Section 5701.5(f) are met
- Delinquent assessments - no more than 15% of the total number of units in a project are 60 or more days delinquent on the payment of their HOA assessments, or if a 2- to 4-unit, none of the units are 60 or more days delinquent

New Condominium Project Reviews (Guide Section 5701.6)

In addition to the project review and eligibility requirements in Guide Section 5701.2, mortgages secured by Condominium Units must comply with all the following requirements:

- Project completion - subject legal phase and prior legal phases are substantially complete (all units in the subject building are complete subject to the selection of buyer preference items). For 2- to 4-unit projects, units are complete and not subject to additional phasing.
- No Manufactured Homes - there are no manufactured homes in the new condominium project
- Owner-occupancy requirements - at least 50% of the total units in the project (or at least 50% of the sum of the subject legal phase and prior legal phases) must have been conveyed or must be under contract to occupants as their primary residences or second homes. All but one unit in a 2- to 4-unit project must have been conveyed or under contract to occupants as their primary residences or second homes.

**Note:** For calculating owner-occupancy under Guide Section 5701.6, a single building can only have one legal phase regardless of whether the project is comprised solely of that single building or multiple buildings. Legal phases are defined by the Project Documents. Construction phases developed for the convenience of the developer are not necessarily legal phases.

- Project budget - HOA assessments must begin once the developer has ceased to pay operating expenses attributable to the project whether or not all units are sold. Developer is responsible for the assessment attributable to the unsold units. Budget is consistent with the nature of the project and appropriate assessment must be established to manage the project:
  - There are appropriate allocations for line items pertinent to the type and status of the project
  - If the project was recently converted, the developer must have initially funded a working capital fund, through contributions made by developer and/or purchasers of the condominium units, in an amount consistent with the estimated remaining life of the common elements

- There must be adequate funding for insurance deductible amounts.
- At least 10% of the operating budget provides funding for replacement reserves, for capital expenditures and deferred maintenance based on the project’s age, estimated remaining life, and replacement cost of major common elements. See Guide Section 5701.6 for calculation details.
- If the budget does not provide a replacement reserve of at least 10%, a Seller may rely on either a reserve study or contributions to a working capital fund. See the conditions in Guide Section 5701.6(i) and (m) for further details.

- Delinquent assessments - no more than 15% of the total number of units in a project are 60 or more days delinquent on the payment of their HOA assessments, or if a 2- to 4-unit, none of the units are 60 or more days delinquent.
- Compliance with laws - project has been created and exists in full compliance with applicable State law, the requirements of the jurisdiction in which the project is located and all other applicable laws and regulations governing the creation of the project.
- Limitations on ability to sell/right of first refusal - right of first refusal in the project documents does not adversely impact the right of mortgagee or its assignee to:
  - Foreclose or take title to a unit pursuant to the remedies in the mortgage, or
  - Accept a deed or assignment in lieu of foreclosure in the event of default by a mortgagor, or
  - Sell or lease a unit acquired by the mortgagee or its assignee.
- Conversions - if the project is a conversion created by conversion of the building(s), the project must meet the following for the Seller’s review and determination of project eligibility:
  - For a conversion involving a Non-Gut Rehabilitation of a prior use of the building that was legally created within the past five years, the engineer’s report (or functionally equivalent documentation for jurisdictions not requiring an engineer’s report) must state that the project is structurally sound, the condition and remaining useful life of the major project components are sufficient to meet the residential needs of the project, and that there is no evidence that any of these conditions have not been met. Major components include the roof, elevators and mechanical systems such as HVAC, plumbing and electricity.
  - All rehabilitation work involved in the conversion (Non-Gut Rehabilitation and Gut Rehabilitation) must be completed in a professional manner.
  - A review of the engineer’s report (or functional equivalent documentation) is not required for conversions involving a Gut-Rehabilitation, and a Non-Gut Rehabilitation if more than five years have elapsed since the legal creation of the project.
- Mortgagee consent: Project Documents must state, or applicable State law must provide, that amendments of a material adverse nature to first-lien mortgages be agreed to by mortgagees that represent at least 51% of the unit votes (one vote for each first-lien mortgage owned).
  - Project Documents must state, or applicable State law must provide, that any action to terminate the legal status of the project or to use insurance proceeds for any purpose other than to rebuild, must be agreed to by first-lien mortgagees that represent at least 51% of the unit votes (one vote for each first-lien mortgage owned).
  - The Project Documents may allow implied approval to be assumed when the then current mortgagee of record fails to submit a response to any written proposal for an amendment within 60 days after the then current mortgagee of record actually receives proper notice of the proposal, provided the notice was delivered by certified or registered mail, with a “return receipt” requested.
