

Loan Product Advisor® Feedback Message Cause and Resolution

This reference contains information about specific messages you may receive while using Loan Product Advisor. It offers clarification to assist you in determining and resolving issues in order to obtain a complete assessment. You may encounter two types of messages:

- **Processing Error Messages** - Messages received online when a Loan Product Advisor submission cannot be processed.
- **Feedback Messages** - Messages received on the Loan Product Advisor Full Feedback Certificate and the Documentation Checklist.

Feedback messages provide detailed information about the assessment of the loan application data. This information should be used to guide you in documenting and underwriting loans for sale to Freddie Mac. Loan Product Advisor is not designed to, and does not, furnish rationales or reasons for a lender's decision to originate (or not to originate) a loan. Therefore, you may not use Loan Product Advisor feedback messages in an adverse action notice as a substitute for your own assessment of a loan application and your own reasons for not originating a loan.

Message Locations

The following table includes types of messages presented in the Loan Product Advisor Results and the location of these messages. Examples of each message type are provided further below with the reasons or clarifications on why the message was received, and recommended actions to resolve issues.

Online Processing Errors

Correct Errors

Errors were detected in this loan application. Please correct all errors before submitting your request to Loan Product Advisor.

To correct errors, please select **Continue** to display the first page containing errors. Fields with errors will have a **X** next to them. Select the field label to display help for that field. **Next** and **Previous** will automatically step you through the pages containing errors.

Loan data changes made in Loan Product Advisor must also be made in your system. Select **Send to Your System** in the left navigation bar to transfer loan data, or enter the loan data directly into your system.

Select **Help** on the Loan Product Advisor toolbar at the top of the page for more information on correcting errors.

This table lists some commonly seen feedback messages that may be returned from Loan Product Advisor with an **Incomplete** status. These messages indicate why data problems prevented the transaction request from being completed and would appear on the Loan Product Advisor Incomplete Messages page.

Code	Incomplete Status Messages	Clarification/Recommended Action
11	No useable credit reports were received for borrower(s).	Confirm accuracy of borrower name and SSN. Borrower credit history may not be robust enough for Loan Product Advisor to assess the transaction.
21	Multiple disputed tradelines; loan not eligible for LP.	Confirm accuracy of accounts being disputed. If inaccurate should be corrected at repository level and rescored.

Purchase Restriction Feedback Messages

This table lists some example feedback messages that may be returned and explains why a loan may be **ineligible for purchase** by Freddie Mac, or unacceptable for FHA insurance or VA guaranty. These messages appear on the Loan Product Advisor Full Feedback Certificate in the Purchase Restriction section.

Code	Purchase Restriction Messages	Clarification/Recommended Action
C5	The loan was submitted with an LTV ratio of [LTV Ratio Percent], which exceeds the maximum LTV ratio of 95% for a purchase transaction mortgage without secondary financing secured by a 1-unit primary residence.	Check the loan terms against your Freddie Mac purchase guidelines.
CH	The loan was submitted with a Debt-to-income ratio of [Total Debt Expense Ratio Percent], which exceeds the maximum allowable limit.	Check the loan terms against your Freddie Mac purchase guidelines.
N/A	Customer receives 'Accept', but Freddie Mac 'Ineligible' under purchase eligibility.	A common cause for this error is because the LTV or TLTV is over the limit that would normally be eligible for purchase for a standard Guide product. For more information, refer to the specific purchase restrictions (s) returned for that loan.

Credit Risk Messages

This table displays some commonly seen feedback messages focused on the highest **risk factors** of the loan to guide the underwriting analysis. These messages appear on the Loan Product Advisor Full Feedback Certificate in the Credit Information section, Credit Risk Comments subsection.

Code	Credit Risk Messages	Clarification/Recommended Action
14	A bankruptcy appears on the application.	Ensure your Declarations are accurate.
15	A foreclosure appears on the application.	Ensure your Declarations are accurate.
