Market Readiness - Industry Testing Timelines

Industry testing is a critical component of Market Readiness for the Single Security Implementation in 2019. There will be several opportunities to test – **please take advantage of ALL that are applicable to your organization!**

- **Exchange process testing** via Dealer Direct – Q3 2018
 - Dealer opportunity for training and testing the entry of exchange transactions in Dealer Direct’s Customer Testing Environment (CTE)
- **Disclosure testing** for new formats and distribution mechanism – Q3 2018
 - Key data vendors* test with aligned Single Security formats (already in use by Freddie Mac)...
 - ...and new distribution methods via the Common Securitization Platform
- **Vendor testing** with customers
 - We will publish what we know as we know it, but check with your vendors for their schedules
- **Single Security Tabletop Exercise** – early Q4 2018
 - Opportunity to walk through key scenarios in a Business Continuity Planning (BCP)-type tabletop “live exercise”

* Only a small subset of vendors will test directly with CSS

Vendor Testing Timeline – to be expanded as information is confirmed

Single Security Tabletop Exercise Overview

- The industry has indicated an interest in an interactive walk-through to ensure market readiness as we approach Single Security critical milestone dates.
- As a result, Freddie Mac and Fannie Mae would like to conduct an active, live exercise with industry participants to simulate end-to-end execution of key securities-related activities such as a TBA Trade or Freddie Mac's PC Exchange.
- The outputs of the exercise will be shared with the market in 4Q 2018 to help ensure industry-wide understanding of impacts and readiness for the implementation of the UMBS.
- We would like market participant volunteers to join us in developing the Single Security tabletop live exercise.

Single Security Tabletop Exercise Details

Why

Inform the market of what is changing
Help participants better understand their upstream and downstream impacts
Identify potential issues or fail points which can be shared with the broader industry

Who

Investors, Broker/Dealers, Custodians, Seller/Service providers, Third Party Providers

How

Starting in July, convene a small monthly working group to discuss process, assess impacts, and contribute to the development of the exercise
Freddie Mac and Fannie Mae will facilitate
Leverage stakeholders to describe their processes, visual examples, sample inputs and outputs

When/Where

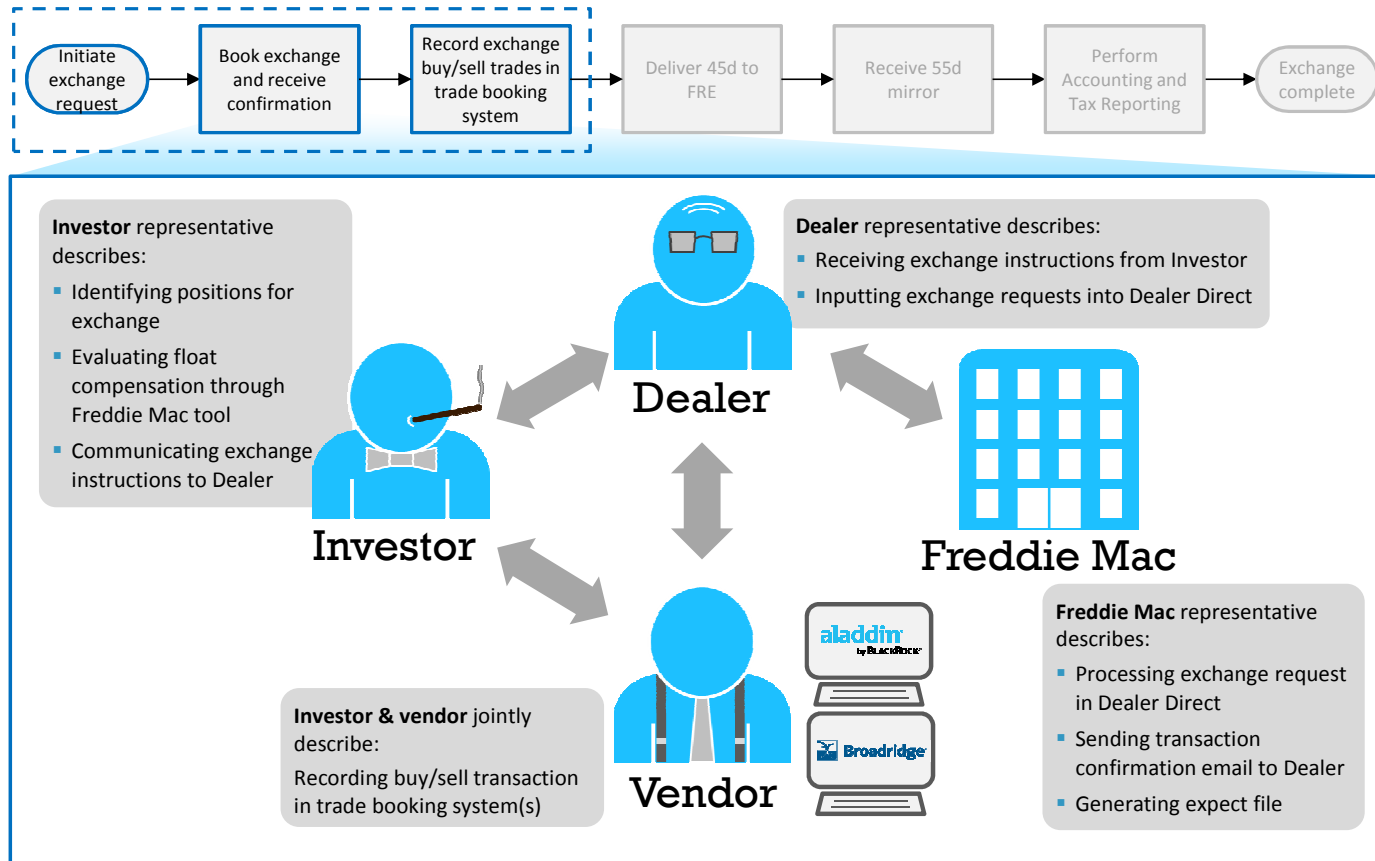

Working Group Sessions: *Monthly via phone/webinar*
Live Exercise: *Early 4Q 2018 in New York, Location TBD*

Single Security 2019: *Will You Be Ready?*
