

# Loan-Level Disclosure

## Variable Names & Descriptions

Freddie Mac provides loan-level information at PC issuance and on a monthly basis for all newly issued fixed-rate and adjustable-rate mortgage (ARM) PC securities issued after December 1, 2005. Loan-level disclosure supplements Freddie Mac's daily and monthly pool-level disclosure for new and previously issued securities.

Loan-level disclosure is available on Freddie Mac's Web site at [FreddieMac.com/mbs/html/sd\\_pc\\_lookup.html](http://FreddieMac.com/mbs/html/sd_pc_lookup.html) by entering the CUSIP or pool number and selecting "Loan Level File."

### Loan-level Disclosure Variables

Fixed-Rate	ARM	Modified	Variable Name	Description	Inception	Monthly
•	•	•	<b>Loan Identifier</b>	The unique designation assigned to the loan by the issuer. The first six characters represent the security identifier. The second six characters is a loan count.	•	•
•	•	•	<b>Loan Correction Indicator</b>	The indicator denoting whether any attributes for the loan have changed from previous disclosures. Y = Yes N = No A = Added D = Deleted	•	•
•	•	•	<b>Prefix</b>	The designation assigned by the issuer denoting the type of the loans and the security.	•	•
•	•	•	<b>Security Identifier</b>	The unique designation assigned to the security by the issuer.	•	•
•	•	•	<b>CUSIP</b>	The unique designation assigned to the security by the Committee on Uniform Securities Identification Procedures (CUSIP).	•	•
•	•		<b>Combined Loan-to-Value (CLTV)</b>	The ratio, expressed as a percentage, obtained by dividing the amount of all known outstanding loans at origination by the value of the property.  Property value reflects either the lesser of the sales price or the appraised property value for a purchase, or the appraised property value for a refinance.  For reperforming, modified fixed-rate and modified step-rate loans, this value will be blank.  If the secondary financing amount disclosed by the Seller includes a home equity line of credit, then the CLTV calculation reflects the disbursed amount at closing of the first lien mortgage loan, not the maximum loan amount available under the home equity line of credit.  In the case of a seasoned mortgage loan, if the Seller cannot warrant that the value of the mortgaged property has not declined since the note date, Freddie Mac requires that the Seller must provide a new appraisal value, which is used in the CLTV calculation.  Percentages less than 1% or greater than 998% will be disclosed as "Not Available," which will be indicated by 999.	•	•
•	•		<b>Borrower Credit Score</b>	The standardized credit score used to evaluate the borrower during the loan origination process.  For reperforming, modified fixed-rate and modified step-rate loans, this value will be blank.  All known credit scores are disclosed at issuance. Generally, the credit score known and disclosed at time of PC issuance is the score used to originate the mortgage. An unavailable credit score or a credit score value less than 300 or greater than 850 will be disclosed as "Not Available," which will be indicated by 9999.	•	•

## Loan-level Disclosure Variables

Fixed-Rate	ARM	Modified	Variable Name	Description	Inception	Monthly
•	•	•	<b>Current Investor Loan UPB</b>	The unpaid principal balance of the loan as it contributes to the current balance of the security.		•
•	•	•	<b>Debt-to-Income (DTI) Ratio</b>	The ratio obtained by dividing the total monthly debt expense by the total monthly income of the borrower at the time the loan was originated or modified.  Percentages less than 1% or greater than 65% will be disclosed as "Not Available," which will be indicated by a 999.	•	•
		•	<b>Estimated Loan-to-Value (ELTV)</b>	For reinstated, reperforming, modified fixed-rate and modified step-rate loans, the ratio obtained by dividing the outstanding balance of the mortgage loan by the estimated current value of the property obtained by the issuer, at the time of issuance, through a proprietary Automated Valuation Model (AVM).  In the case of modified mortgages with deferred amounts, the outstanding balance of the modified mortgage loan reflects both interest bearing and non-interest bearing UPB amounts. Although we believe that our automated valuation model yields a reasonable approximation of the property's current value, using a value obtained from: (i) a different automated valuation model, (ii) an appraisal based on a physical inspection of the property or (iii) an arm's length sale of the property could result in a different value for the property.  Estimated LTV ratios that are not available, less than 1% or greater than 998% will be disclosed as "Not Available," which is indicated by 999.	•	•
•	•	•	<b>First Payment Date</b>	The month and year that the first scheduled payment on the loan is due.  For seller-owned modified mortgages, converted mortgages, balloon reset and construction to permanent mortgages, the first payment due date of the mortgage as of the note modification, conversion, or construction to permanent date of the mortgage.	•	•
•	•	•	<b>First Time Homebuyer Flag</b>	The indicator denoting whether a borrower on the loan qualifies as a first-time homebuyer.  Indicates whether the Borrower, or one of a group of Borrowers, is an individual who (1) is purchasing the mortgaged property, (2) will reside in the mortgaged property as a primary residence and (3) had no ownership interest (sole or joint) in a residential property during the three-year period preceding the date of the purchase of the mortgaged property. With certain limited exceptions, a displaced homemaker or single parent may also be considered a First- Time Homebuyer if the individual had no ownership interest in a residential property during the preceding three-year period other than an ownership interest in the marital residence with a spouse."  Y = Yes N = No 9 = Not Available	•	•
•	•		<b>Initial Only First Principal &amp; Interest Payment Date</b>	For interest-only loans, the month and year that the first monthly scheduled fully amortizing principal and interest payment is due.	•	•
•	•		<b>Interest Only Loan Indicator</b>	The indicator denoting whether the loan only requires interest payments for a specified period beginning with the first payment date.	•	•
•	•	•	<b>Issuance Investor Loan UPB</b>	The unpaid principal balance of the loan as it contributes to the balance of the security at the time the security was issued.	•	•
•	•	•	<b>Loan Age</b>	The number of scheduled payments from the time the loan was originated or modified up to and including the current reporting period.  For seller-owned modified mortgages, converted mortgages, balloon reset and construction to permanent mortgages, the origination month is determined by the date of the note modification, the date of the conversion, or the construction to permanent change date associated with the mortgage.	•	•

## Loan-level Disclosure Variables

Fixed-Rate	ARM	Modified	Variable Name	Description	Inception	Monthly
•	•	•	<b>Loan Purpose</b>	<p>The classification describing the purpose of the loan.</p> <p>Generally, a Cash-out Refinance mortgage loan is a mortgage loan in which the use of the loan amount is not limited to specific purposes. A mortgage loan placed on a property previously owned free and clear by the Borrower is always considered a Cash-out Refinance mortgage loan.</p> <p>Generally, a No Cash-out Refinance mortgage loan is a mortgage loan in which the loan amount is limited to the following uses:</p> <ul style="list-style-type: none"> <li>• Pay off the first mortgage, regardless of its age</li> <li>• Pay off any junior liens secured by the mortgaged property, that were used in their entirety to acquire the subject property</li> <li>• Pay related closing costs, financing costs and prepaid items, and</li> <li>• Disburse cash out to the Borrower (or any other payee) not to exceed 2% of the new refinance mortgage loan or \$2,000, whichever is less</li> </ul> <p>As an exception to the above, for construction conversion mortgage loans and renovation mortgage loans, the amount of the interim construction financing secured by the mortgaged property is considered an amount used to pay off the first mortgage. Paying off unsecured liens or construction costs paid by the Borrower outside of the secured interim construction financing is considered cash out to the Borrower, if greater than \$2,000 or 2% of the loan amount.</p> <p>This disclosure is subject to various special exceptions used by Sellers to determine whether a mortgage loan is a No Cash-out Refinance mortgage loan.</p> <p>If a Refinance is applicable, but the seller of the mortgage loan does not specify Cash-out Refinance or No Cash-out Refinance, "Refinance—Not Specified" is indicated. C = Refinance - Cash Out                      N = Refinance - No Cash Out                      R = Refinance - Not Specified                      P = Purchase                      M = Modified - Loss Mitigation                      9 = Not Available</p>	•	•
•	•	•	<b>Loan Term</b>	The number of months in which regularly scheduled borrower payments are due.	•	•

•	•	•	<b>Maturity Date</b>	The month and year that the final scheduled payment on the loan is due.	•	•
•	•	•	<b>Months to Amortization</b>	For interest-only loans, the number of months from the current month to the first scheduled principal and interest payment date.	•	•
•	•	•	<b>Mortgage Insurance Percentage (MI %)</b>	<p>The percentage of mortgage insurance coverage obtained at origination in effect at the time the security was issued.</p> <p>Only primary mortgage insurance that is purchased by the Borrower, lender or Freddie Mac is disclosed. Mortgage insurance that constitutes "credit enhancement" that is not required by Freddie Mac's Charter is not disclosed. Amounts of mortgage insurance reported by Sellers that are in excess of 55% will be disclosed as "Not Available," which will be indicated by 999.</p> <p>000= No MI                      999= Not Available</p>	•	•
•	•	•	<b>Mortgage Insurance Cancellation Indicator</b>	<p>The indicator denoting whether the mortgage insurance has been cancelled after the security was issued.</p> <p>Y = Yes                      N = No                      7 = Not Applicable</p>	•	•
•	•	•	<b>Mortgage Loan Amount</b>	<p>The dollar amount of the loan as stated on the note at the time the loan was originated or modified.</p> <p>For reperforming, modified fixed-rate and modified step-rate loans, this value represents both the interest bearing and non-interest bearing amount.</p>	•	•

## Loan-level Disclosure Variables

Fixed-Rate	ARM	Modified	Variable Name	Description	Inception	Monthly
•	•	•	<b>Remaining Months to Maturity (RMM)</b>	The number of scheduled monthly payments that will reduce the Current Investor Loan UPB to zero. For fixed-rate loans, this value considers the impact of any curtailments.	•	•
•	•	•	<b>Seller Name</b>	The name of the entity that sold the loan to the issuer. This field will not be updated after issuance, regardless of mergers/acquisitions.	•	•
•	•	•	<b>Servicer Name</b>	The name of the entity that services the loan during the current reporting period.	•	•
•	•	•	<b>Government Insured Guarantee</b>	The classification describing the Government Insured/Guarantee Program, if any, covering the loan. FH = FHA VA = Veterans Affair RH = Rural Housing IH = Section 184 Indian Home 99 = Not Available	•	•
•	•	•	<b>Assumability Indicator</b>	The indicator denoting whether the loan is assumable by another borrower. Y = Yes N = No	•	•
•	•	•	<b>Channel</b>	The origination channel used by the party that delivered the loan to the issuer. For reperforming, modified fixed-rate and modified step-rate loans, this value will be blank. Disclosure indicates whether a broker or correspondent, as those terms are defined below, originated or was involved in the origination or the mortgage.  If a Third-Party Origination is applicable, but the Seller does not specify Broker or Correspondent, the disclosure will indicate "TPO Not Specified." If a Broker, Correspondent or Third Party Origination disclosure is not applicable, the mortgage loan will be designated as Retail, as defined below.  • Broker is a person or entity that specializes in loan originations, receiving a commission (from a Correspondent or other lender) to match Borrowers and lenders. The Broker performs some or most of the loan processing functions, such as taking loan applications, or ordering credit reports, appraisals and title reports. Typically, the Broker does not underwrite or service the mortgage loan and generally does not use its own funds for closing; however, if the Broker funded a mortgage loan on a lender's behalf, such a mortgage loan is considered a "Broker" third party origination mortgage loan. The mortgage loan is generally closed in the name of the lender who commissioned the Broker's services.  • Correspondent is an entity that typically sells the Mortgages it originates to other lenders, which are not Affiliates of that entity, under a specific commitment or as part of an ongoing relationship. The Correspondent performs some or all the loan processing functions, such as taking the loan application, ordering credit reports, appraisals, and title reports, and verifying the Borrower's income and employment. The Correspondent may or may not have delegated underwriting and typically funds the mortgage loans at settlement. The mortgage loan is closed in the Correspondent's name and the Correspondent may or may not service the mortgage loan. The Correspondent may use a Broker to perform some of the processing functions or even to fund the loan on its behalf; under such circumstances, the mortgage loan is considered a "Broker" third party origination mortgage loan, rather than a "Correspondent" third party origination mortgage loan.  • Retail Mortgage is a mortgage loan that is originated, underwritten and funded by a lender or its Affiliates. The mortgage loan is closed in the name of the lender or its Affiliate and if it is sold to Freddie Mac, it is sold by the lender or its Affiliate that originated it. A mortgage loan that a Broker or Correspondent completely or partially originated, processed, underwrote, packaged, funded or closed is not considered a Retail mortgage loan.  • For purposes of the definitions of Correspondent and Retail, "Affiliate" means any entity that is related to another party as a consequence of the entity, directly or indirectly, controlling the other party, being controlled by the other party, or being under common control with the other party.  R = Retail B = Broker C = Correspondent T = Third Party Origination - Not Specified 9 = Not Available	•	•
		•	<b>Updated Credit Score</b>	For reinstated, reperforming, modified fixed-rate and modified step-rate loans, the most recently available standardized credit score provided at the time of issuance. If an updated credit score is unavailable or outside the range of 300 to 850, then we disclose "Not Available," which is indicated by 9999.	•	•
	•		<b>Convertibility Indicator</b>	The indicator denoting whether the loan has a feature that allows the borrower to convert from an adjustable rate to a fixed rate. Y = Yes N = No	•	•

		•	<b>Modification Program</b>	<p>For reperforming, modified fixed-rate and modified step-rate loans, the program under which the loan was modified.</p> <ul style="list-style-type: none"> <li>- Classic Modification (C): Classic modifications included capitalization of interest and non-interest arrearages, and may have included extensions of the term of the mortgage and reductions in interest rate but not forbearance or reduction of principal. Classic modifications were discontinued in February 2012.</li> <li>- HAMP Modification Program (H): HAMP modifications include capitalization of interest and non-interest arrearages, lowering of interest rates (to a floor of 2%), extending the Mortgage term, a borrower trial period for the modifications before they are finalized and may include forbearance (but not reductions) of principal. If the initial modified interest rate is less than the terminal step rate, the interest rate will increase after five years in 1% (or less) increments annually until the terminal step rate is reached. HAMP applies to Mortgages originated on or before January 1, 2009 and will expire on December 31, 2015.</li> <li>- HAMP Backup Modification (B): Certain borrowers who initially qualified for a HAMP modification and who made timely payments during a HAMP trial period, but who, because of income verification or other reasons, subsequently failed to qualify under the HAMP program, could have had their Mortgages modified under our HAMP backup initiative (which was a non-HAMP initiative). HAMP backup modifications generally had terms similar to modifications under the HAMP program. HAMP backup modifications had to have modified payment due dates on or before December 1, 2010.</li> <li>- Non-HAMP Standard Modification (S): Non-HAMP Standard modifications include capitalization of interest and non-interest arrearages, setting of interest rates (increasing or decreasing rates), extending the Mortgage term to 480 months, a borrower trial period for the modifications before they are finalized and may include forbearance (but not reductions) of principal. This initiative began in October 2011.</li> <li>- Streamlined Modification (T): Streamlined modifications include capitalization of interest and non-interest arrearages, setting of interest rates (increasing or decreasing rates), extending the Mortgage term, a borrower trial period for the modifications before they are finalized and may have included forbearance (but not reductions) of principal. We generally offer the streamlined modification to borrowers who are at least three months delinquent on their Mortgages. The Streamlined Modification initiative was implemented in July 2013 (with earlier adoption permitted) and the last day a trial period may be entered into is August 1, 2015.</li> <li>- Alternative Modification Program (A): Alternative modifications included capitalization of interest and non-interest arrearages, setting of interest rates (increasing or decreasing rates), extending the Mortgage term, a borrower trial period for the modification before they are finalized and may have included forbearance (but not reductions) of principal. The terms of the modifications under our alternative modification initiative generally were similar to those under our streamlined modification initiative; however, we generally offered the alternative modification to borrowers who were five to twenty-four months delinquent on their Mortgages. The alternative modification initiative was a one-time initiative and the final modification agreement must have been entered into no later than January 1, 2014.</li> <li>- Underwater Modification Program (U): Underwater modifications included capitalization of interest and non-interest arrearages, setting of interest rates (increasing or decreasing rates), extending the Mortgage term, and may have included forbearance (but not reductions) of principal. The terms of the modifications under our underwater modification initiative were generally offered to borrowers with loan origination dates before May 31, 2009 whose Mortgages had estimated loan-to-value ratios at the time of modification of greater than 150%. The underwater modification initiative was a one-time initiative and the final modification agreement must have been entered into no later than August 1, 2013.</li> </ul> <p>A = Alternative            C = Classic            B = HAMP Backup            H = HAMP            O = Other            R = Regular            S = Standard            T = Streamlined            U = Underwater            9 = Not Available</p>	•	•

		•	<b>Origination Combined Loan-To-Value (CLTV)</b>	For reperforming, modified fixed-rate and modified step-rate loans, the ratio, expressed as a percentage, obtained by dividing the amount of all known outstanding loans at origination by the value of the property. Property value reflects either the lesser of the sales price or the appraised property value for a purchase, or the appraised property value for a refinance. 9999 = Not Available	•	•
		•	<b>Origination Debt-To-Income Ratio</b>	For reperforming, modified fixed-rate and modified step-rate loans, the ratio obtained by dividing the total monthly debt expense by the total monthly income of the borrower at the time the loan was originated.  In the case of purchase mortgages, the ratio was obtained by dividing the mortgage loan amount on the note date by the lesser of the mortgaged property's appraised value on the note date or its purchase price.  In the case of a refinance mortgage loan, the ratio was obtained by dividing the mortgage loan amount on the note date by the mortgaged property's appraised value on the note date.  In the case of a seasoned mortgage loan, if the Seller could not warrant that the value of the mortgaged property has not declined since the note date, Freddie Mac required that the Seller provide a new appraisal value, which was used in the LTV calculation. 		•	<b>Origination Loan Purpose</b>	<p>For reperforming, modified fixed-rate and modified step-rate loans, the classification of the loan as either a purchase money mortgage or a refinance mortgage at the time the loan was originated.</p> <p>The classification describing the purpose of the loan.</p> <p>Indicates whether the mortgage loan is a Cash-out Refinance mortgage, No Cash-out Refinance mortgage, a Purchase mortgage or a Modified Mortgage. If a Refinance is applicable, but the seller of the mortgage loan does not specify Cash-out Refinance or No Cash-out Refinance, "Refinance—Not Specified" is indicated. "Not Available" will be indicated by a 9.</p> <p>A Modified Mortgage is a mortgage which has been modified for loss mitigation purposes.</p> <p>Generally, a Cash-out Refinance mortgage loan is a mortgage loan in which the use of the loan amount is not limited to specific purposes. A mortgage loan placed on a property previously owned free and clear by the Borrower is always considered a Cash-out Refinance mortgage loan.</p> <p>Generally, a No Cash-out Refinance mortgage loan is a mortgage loan in which the loan amount is limited to the following uses:</p> <ul style="list-style-type: none"> <li>• Pay off the first mortgage, regardless of its age</li> <li>• Pay off any junior liens secured by the mortgaged property, that were used in their entirety to acquire the subject property</li> <li>• Pay related closing costs, financing costs and prepaid items, and</li> <li>• Disburse cash out to the Borrower (or any other payee) not to exceed 2% of the new refinance mortgage loan or \$2,000, whichever is less</li> </ul> <p>As an exception to the above, for construction conversion mortgage loans and renovation mortgage loans, the amount of the interim construction financing secured by the mortgaged property is considered an amount used to pay off the first mortgage. Paying off unsecured liens or construction costs paid by the Borrower outside of the secured interim construction financing is considered cash out to the Borrower, if greater than \$2,000 or 2% of the loan amount.</p> <p>This disclosure is subject to various special exceptions used by Sellers to determine whether a mortgage loan is a No Cash-out Refinance mortgage loan.</p> <p>C = Refinance - Cash Out            N = Refinance - No Cash Out            R = Refinance - Not Specified            P = Purchase            9 = Not Available</p>	•	•

		•	<b>Origination Channel</b>	<p>For repereforming, modified fixed-rate and modified step-rate loans, the origination channel used by the party that delivered the loan to the issuer.</p> <ul style="list-style-type: none"> <li>• Broker is a person or entity that specializes in loan originations, receiving a commission (from a Correspondent or other lender) to match Borrowers and lenders. The Broker performs some or most of the loan processing functions, such as taking loan applications, or ordering credit reports, appraisals and title reports. Typically, the Broker does not underwrite or service the mortgage loan and generally does not use its own funds for closing; however, if the Broker funded a mortgage loan on a lender's behalf, such a mortgage loan is considered a "Broker" third party origination mortgage loan. The mortgage loan is generally closed in the name of the lender who commissioned the Broker's services.</li> <li>• Correspondent is an entity that typically sells the Mortgages it originates to other lenders, which are not Affiliates of that entity, under a specific commitment or as part of an ongoing relationship. The Correspondent performs some or all of the loan processing functions, such as taking the loan application, ordering credit reports, appraisals, and title reports, and verifying the Borrower's income and employment. The Correspondent may or may not have delegated underwriting and typically funds the mortgage loans at settlement. The mortgage loan is closed in the Correspondent's name and the Correspondent may or may not service the mortgage loan. The Correspondent may use a Broker to perform some of the processing functions or even to fund the loan on its behalf; under such circumstances, the mortgage loan is considered a "Broker" third party origination mortgage loan, rather than a "Correspondent" third party origination mortgage loan.</li> <li>• Retail Mortgage is a mortgage loan that is originated, underwritten and funded by a lender or its Affiliates. The mortgage loan is closed in the name of the lender or its Affiliate and if it is sold to Freddie Mac, it is sold by the lender or its Affiliate that originated it. A mortgage loan that a Broker or Correspondent completely or partially originated, processed, underwrote, packaged, funded or closed is not considered a Retail mortgage loan.</li> <li>• For purposes of the definitions of Correspondent and Retail, "Affiliate" means any entity that is related to another party as a consequence of the entity, directly or indirectly, controlling the other party, being controlled by the other party, or being under common control with the other party.</li> </ul> <p>R = Retail            B = Broker            C = Correspondent            T = Third Party Origination - Not Specified            9 = Not Available</p>	•	•
