

# Document Management System (DMS)

Multifamily Loan Servicing Site

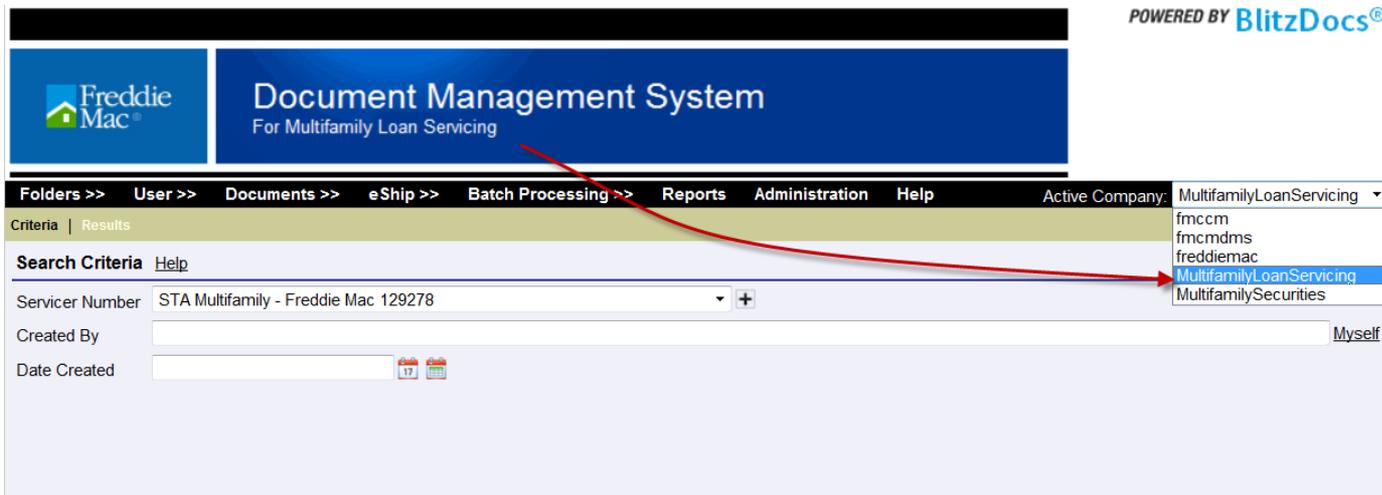

*(For access to the recorded webinar, click [here](#))*

## New Site Simplifies Loan Accounting Reporting

- Secure data transfer vehicle
- Gives Servicers direct access to upload deliverables into one central location
- Reduces risk of mishandling and/or misplacing submission
- Gives Servicers direct access to current and historical Servicing Account Statements and Fee Notifications

- To access DMS, contact your organization's [Freddie Mac System Administrator](#) for your username and password
- Use the following link <https://www.blitzdocs.net>
- If you need a password reset please e-mail [multifamily\\_security@freddiemac.com](mailto:multifamily_security@freddiemac.com)
- Existing DMS users will need to click on the Active Company drop down as shown below

The screenshot displays the Freddie Mac Document Management System interface. The top navigation bar includes the Freddie Mac logo and the text "Document Management System For Multifamily Loan Servicing". The main navigation menu contains "Folders >>", "User >>", "Documents >>", "eShip >>", "Batch Processing >>", "Reports", "Administration", and "Help". The "Active Company" dropdown menu is open, showing a list of options: "MultifamilyLoanServicing", "fmccm", "fmcmdms", "freddiemac", "MultifamilyLoanServicing", and "MultifamilySecurities". A red arrow points from the "Batch Processing >>" menu item to the "MultifamilyLoanServicing" option in the dropdown menu. The search criteria section shows "Servicer Number" set to "STA Multifamily - Freddie Mac 129278", "Created By" set to "Myself", and "Date Created" with a calendar icon.
