Mortgage Screening Process: Red Flags for Single-Family Mortgage Fraud

Introduction

One key way that underwriters, processors and quality control employees can protect their employers is by identifying documentation that has been altered or contains misrepresentations or other information that might indicate "suspicious activity" (as defined in the Freddie Mac *Single-Family* and *Multifamily Seller/Service Guides*). As the technology used to create these types of documents evolves and documentation standards change, identification of such documents becomes more challenging.

To assist in recognizing mortgages that could contain false or misleading or otherwise suspicious information, Freddie Mac has compiled lists of red flags that may be identified during various parts of the mortgage screening process. Please keep in mind that a red flag is not proof of a misrepresentation or fraud; it's an indicator that something doesn't make sense or is inconsistent with what is expected.

Each individual red flag listed in this document may not be problematic in and of itself, but may warrant additional scrutiny when reviewed together with other red flags. Red flags must be reviewed promptly to determine if something is, in fact, wrong.

Seller/Service Requirements

The information in this document does not supersede or in any way alter the requirements in Freddie Mac's *Single-Family Seller/Service Guide* (Guide) or other Purchase Documents (as that term is defined in the Guide).

You must continue to meet all Guide requirements, including those relating to fraud prevention, detection, and reporting, and Freddie Mac's Exclusionary List, as well as meet any applicable Bank Secrecy Act requirements. Refer to Guide Chapter 3201 , *Fraud Prevention, Detection and Reporting*; Reporting Other Suspicious Activity Guide Section 3101.1, *Exclusionary List*, and Guide Section 1301.2, *Compliance with applicable law*.

Mortgage Screening Process: Red Flags for Single-Family Mortgage Fraud

Red Flags

General Red Flags

- 🚩 Type, spacing, and/or font varies within document from a single source.
- 🚩 Evidence of “white-out” or other alterations.
- 🚩 Contains round dollar amounts or “squeezed-in” numbers.
- 🚩 Any documentation that is difficult to read (e.g., has been copied numerous times and font appears blurry).
- 🚩 Inconsistencies identified throughout the file (e.g., applicants’ names, phone numbers, addresses, Social Security numbers, or handwriting).
- 🚩 More than one mortgage lender is reflected throughout the file.
- 🚩 Parties to the transaction have more than one role (for example, real estate agent is also landlord; employer is also gift donor).
- 🚩 Applicant appears to be related to another party in the transaction, except the gift donor (for example, verifier of funds or employer, appraiser, escrow officer, etc.).
- 🚩 Applicants’ signatures vary throughout the loan package.
- 🚩 Unusually long or unusually short loan processing time (brokered loans).
- 🚩 Patterns or similarities in loan packages received from a specific broker, loan originator, real estate agent or property seller.
- 🚩 Borrower or any party to the transaction is on Freddie Mac’s Exclusionary List.

Mortgage Loan Application

- 🚩 Down payment other than cash (e.g., rent credit, sale of personal property, repayment of loan, gift, etc.).
- 🚩 Loan is for an owner-occupied refinance, but the applicant does not live in the subject property.
- 🚩 Applicant is buying an investment property or second home, but does not own current residence.
- 🚩 Applicant is purchasing a second home in close proximity to the primary residence, or in a non-resort area.
- 🚩 Applicant is downsizing to smaller or less expensive home, but is retaining previous residence as “rental.”
- 🚩 A significant or unrealistic commute distance from subject property to employment exists (on owner-occupied transactions).

Mortgage Screening Process: Red Flags for Single-Family Mortgage Fraud

- 🚩 Post office box is the only address listed for employer (especially on the handwritten application).
- 🚩 The employer's phone number is a cell phone, but employer has a "brick and mortar" presence.
- 🚩 Applicant's office phone number is the same as home number, but application and/or documentation do not reflect self-employment (applicant is possibly self-employed).
- 🚩 Number of years on the job/in that profession inconsistent with applicant's age.
- 🚩 Applicant's listed education does not appear to be sufficient for the indicated employment position.
- 🚩 Applicant's income level is not commensurate with his/her stated employment.
- 🚩 Employment is inconsistent with the credit report, bank statements (for direct payroll deposits), and tax returns.
- 🚩 Handwritten application lists debts in the same order as credit report (suggests the person completing the loan application may not have obtained an exhaustive list of debts/obligations from the applicant).
- 🚩 Not all real property and related liens are listed on Schedule of Real Estate Owned.
- 🚩 Incomplete handwritten application.
- 🚩 Significant or contradictory changes from initial to final loan application (e.g., debt, employment, income, etc.).
- 🚩 Unsigned or undated loan application.

Credit Report

- 🚩 Personal data on file application is not consistent with initial application.
- 🚩 Social security number is invalid, differs from loan application, or was issued prior to applicant's date of birth.
- 🚩 Residence or employment information is inconsistent with the application or other file documentation (e.g., indicated employment is in a different profession or line of work).

Verification of Employment (VOE) (if contained within the loan file)
