

## SCHEDULE & CALENDARS

### SCHEDULE & CALENDARS CHECKLIST

- 01 — Prioritize what matters now, offload the rest.
- 02 — Allow to switch between full/compact views.
- 03 — Provide quick jumps between tracks.
- 04 — Consider flipping the timing header by 90 degrees.
- 05 — Extract/feature relevant data for each channel.
- 06 — Display what's happening now and coming next.
- 07 — Provide filters/tags/autocomplete for filtering.
- 08 — Open detail view (cards) inline or as an overlay.
- 09 — Adjust position of "close" buttons to ease closing.

### SCHEDULE & CALENDARS SUMMARY

- 01 — Highlight most frequently purchased tickets.
- 02 — Use inline autocomplete for locations.
- 03 — Smart defaults minimize number of taps.
- 04 — Progressive onboarding instead of sign-up.
- 05 — Use steppers for quick time/date jumps.
- 06 — Filters for changeover times / accessibility.
- 07 — Customize placeholders for quicker purchases.
- 08 — Highlight columns/rows on tap/hover.
- 09 — Open detail view inline or as overlay.
- 10 — Accordions usually work very well.
